

Front End Technologies Week 1 Coding Assignment

Points possible: 70

Category	Criteria	% of Grade
Functionality	Does the code work?	25
Organization	Is the code clean and organized? Proper use of white space, syntax, and consistency are utilized. Names and comments are concise and clear.	25
Creativity	Student solved the problems presented in the assignment using creativity and out of the box thinking.	25
Completeness	All requirements of the assignment are complete.	25

Instructions: In VS Code, or an IDE of your choice, write the code that accomplishes the objectives listed below. Ensure that the code compiles and runs as directed. Take screenshots of the code and of the running program (make sure to get screenshots of all required functionality) and paste them in this document where instructed below. Create a new repository on GitHub for this week's assignments and push this document, with your project code, to the repository. Add the URL for this week's repository to this document where instructed and submit this document to your instructor when complete.

Coding Steps:

1. Create a website using only HTML. The website can be anything you like (within school guidelines) as long as it meets the following criteria – website must contain:
 - a. At least 3 pages
 - b. Links to navigate between all pages present on each page
 - c. A list

- d. 3 images
- e. 2 different size headers
- f. A table
- g. A form

Screenshots of Code:

The screenshot shows the Visual Studio Code interface with the following details:

- Explorer View:** Shows a folder named "WEEK 1 WEBSITE" containing three files: "about.html", "contact.html", and "home.html".
- Code Editor:** Displays the content of "home.html". The code includes HTML structure, meta tags, and a navigation menu with links to "home.html", "about.html", and "contact.html". It also features two images and a list of treats.
- Bottom Status Bar:** Shows the command being run: "[Running] Command : cd "/Users/jennifersanchez/Desktop/Website/Week 1 website/" && open -a 'Google Chrome' tempCodeRunnerFile.html".
- Terminal:** Shows the output: "[Done] exited with code=0 in 0.141 seconds".

```
<!DOCTYPE html>
<html lang="en">
  <head>
    <meta charset="UTF-8">
    <meta name="viewport" content="width=, initial-scale=1.0">
    <title>Document</title>
  </head>
  <body>
    <h1>Home</h1>
    <div>
      <a href="#">Home</a>
      <a href="#">About</a>
      <a href="#">Contact</a>
    </div>
    
    <p>One of our top rated cookies, chocolate chip cookies.</p>
    
    <p>One of our best seller cakes, chocolate caked layered with fresh raspberries.</p>
    <h4>Our top rated treats</h4>
    <ul>
      <li>Chocolate chip cookie</li>
      <li>Matcha cookie</li>
      <li>Chocolate cake layered with raspberries</li>
      <li>Vegan cheesecake</li>
    </ul>
  </body>
</html>
```

PROMINEO TECH

The screenshot shows a dark-themed code editor interface. On the left is the Explorer sidebar with a single folder named "WEEK 1 WEBSITE" containing three files: "about.html", "contact.html", and "home.html". The main area displays the content of the "about.html" file. The code is as follows:

```
<!DOCTYPE html>
<html lang="en">
  <head>
    <meta charset="UTF-8">
    <meta name="viewport" content="width=, initial-scale=1.0">
    <title>Document</title>
  </head>
  <body>
    <h1>About</h1>
    <div>
      <a href="home.html">Home</a>
      <a href="about.html">About</a>
      <a href="contact.html">Contact</a>
    </div>
    
    <h2>About our bakery</h2>
    <p>Our bakery is based in Southern California. We specialize in cakes, cookies, brownies, and many more baked goods. Our purpose is to make you fall in love with our sweets since they're made with love. We have 20 years of experience and our prices are reasonable.</p>
    <h2>Why choose us?</h2>
    <p>Because we'll make you fall in love with our sweets since they're made with love. We have 20 years of experience and our prices are reasonable.</p>
    <h3>Store Hours</h3>
    <table>
      <thead>
        <tr><th>Day</th><th>Hours</th></tr>
      <tbody>
        <tr><td>Monday – Saturday</td><td>8:00 AM – 6:00 PM</td></tr>
        <tr><td>Sunday</td><td>10:00 AM – 4:00 PM</td></tr>
      </tbody>
    </table>
  </body>
</html>
```

Below the code editor are tabs for PROBLEMS, OUTPUT, DEBUG CONSOLE, and TERMINAL. The OUTPUT tab shows the command run: [Running] Command : cd "/Users/jennifersanchez/Desktop/Website/Week 1 website/" && open -a 'Google Chrome' tempCodeRunnerFile.html. The TERMINAL tab shows the output: [Done] exited with code=0 in 0.141 seconds.

PROMINEO TECH

The screenshot shows a code editor interface with the following details:

- Explorer:** Shows a folder named "WEEK 1 WEBSITE" containing files: "about.html", "contact.html", and "home.html".
- Editor:** Displays the content of the "about.html" file. The code includes navigation links, a bakery description, and store hours information.
- Terminal:** Shows the command run: `[Running] Command : cd "/Users/jennifersanchez/Desktop/Website/Week 1 website/" && open -a 'Google Chrome' tempCodeRunnerFile.html`. It also shows the process completed: `[Done] exited with code=0 in 0.141 seconds`.

```
<a href="home.html">Home</a>
<a href="about.html">About</a>
<a href="contact.html">Contact</a>

## About our bakery

Our bakery is based in Southern California. We specialize in cakes, cookies, brownies, and many more baked goods. Our purpose is to bring joy through delicious treats.

## Why choose us?

Because we'll make you fall in love with our sweets since they're made with love. We have 20 years of experience and our prices are competitive.

### Store Hours

| Monday - Saturday, Sunday  |
|----------------------------|
| Time: 7:30am - 4pm, Closed |

```

PROMINEO TECH

The screenshot shows a code editor interface with the following details:

- EXPLORER** panel on the left showing a project structure under "WEEK 1 WEBSITE": `Get Started`, `home.html`, `about.html`, `contact.html`.
- CODE** panel in the center displaying the content of `contact.html`:

```
<!DOCTYPE html>
<html lang="en">
<head>
    <meta charset="UTF-8">
    <meta name="viewport" content="width=, initial-scale=1.0">
    <title>Document</title>
</head>
<body>
    <h1>Contact</h1>
    <div>
        <a href="home.html">Home</a>
        <a href="about.html">About</a>
        <a href="contact.html">Contact</a>
    </div>
    <table>
        <tr>
            <th>Site</th>
            <th>Link</th>
        </tr>
        <tr>
            <td>Facebook</td>
            <td><a href="#">Check us out on Facebook</a></td>
        </tr>
        <tr>
            <td>Instagram</td>
            <td><a href="#">Check us out on Instagram</a></td>
        </tr>
    </table>

```

- PROBLEMS**, **OUTPUT**, **DEBUG CONSOLE**, and **TERMINAL** tabs at the bottom.
- TERMINAL** tab shows the command run: `[Running] Command : cd "/Users/jennifersanchez/Desktop/Website/Week 1 website/" && open -a 'Google Chrome' tempCodeRunnerFile.html`.
- OUTPUT** tab shows the result: `[Done] exited with code=0 in 0.141 seconds`.

PROMINEO TECH

The screenshot shows the Visual Studio Code interface with the following details:

- EXPLORER**: Shows the project structure under "WEEK 1 WEBSITE" with files: about.html, contact.html, and home.html.
- EDITOR**: The "contact.html" file is open, displaying the following code:

```
<html>
  <body>
    <table>
      <tr>
        <td><a href="#">Check us out on Facebook</a></td>
      </tr>
      <tr>
        <td>Instagram</td>
        <td><a href="#">Check us out on Instagram</a></td>
      </tr>
    </table>
    <form>
      <h2>Contact Us</h2>
      <input type="text" name="firstName" placeholder="First Name">
      <input type="text" name="lastName" placeholder="Last Name">
      <input type="text" name="phone" placeholder="Phone Number">
      <input type="submit" value="Submit">
    </form>
  </body>
</html>
```
- OUTPUT**: Shows the terminal output:

```
[Running] Command : cd "/Users/jennifersanchez/Desktop/Website/Week 1 website/" && open -a 'Google Chrome' tempCodeRunnerFile.html
[Done] exited with code=0 in 0.141 seconds
```
